

REACH EVERY NEIGHBOR WE CAN.

Become a Community Ambassador

Become a Justice for 626 Ambassador

An ambassador is a friend of Justice for 626 who supports their community by creating a space for neighbors, friends, and family members to come together, learn about their legal rights, and understand the resources available to them.

There are still friends, family members, and neighbors who may not know they could be entitled to compensation through legal action. You can help us reach them before time runs out.

Bring Your Community Together

- ✓ Host a small gathering of 5 or more unrepresented Eaton Fire impacted people from your network at a location of your choice.
- ✓ You invite your friends, family, neighbors, and community connections. We'll handle the rest.
- ✓ A Justice for 626 team member will join you to share information about the Eaton Fire lawsuit against SCE and inform attendees about their rights with the approaching litigation deadline.
- ✓ We'll provide the resources and support you need to make your gathering comfortable and successful.

Who Can Be an Ambassador?

Anyone who is connected to the Eaton Fire impacted community, willing to reach out to their network, and able to bring together at least 5 people who are not currently represented by an attorney.
